Emergency Lighting Inspection Certificate

Certificate Number: ELI007

Company details
Simplementary
148 Upper Richmond Rd
Putney, London
Postcode : SW15 2SW
Company telephone no. : 020 8780 3651

Customer		
Tes T Customer	Job ID	41341
Wareham, Dorset	Date	24/11/2021
United Kingdom, BH20 4DY	Name of the responsible person	Test Person
01254238672	Is the log book available?	Yes

WARNING
Full duration tests involve discharging the batteries, so the emergency lighting will not be fully functional until the batteries have had time to recharge. For this reason, always carry out testing at times of minimal risk, or only test alternate luminaires at any one time.

Duration of Test
100

INSPECTED	YES/NO
Have the monthly function tests been carried out and recorded in the logbook?	Yes
Does lighting have test switches?	Yes
Are all lights clean and secure?	No
Has the mains been restored and are all charge lights showing?	No
lighting system operate correctly?	Yes

Colours configurable to match your brand.

Configurable Filenames. Including date, job no and custom text.

ACTIONS TO BE TAKEN ON FINDING FAILURES

- The supplier of the system or competent person should be contacted to rectify any faults.

- A risk assessment of any failures should be conducted; this should evaluate the people who will be at increased risk and the level of that risk. Based on this data, the appropriate action should be taken.

- Action may be:

1. To warn occupants to be extra vigilant until the system is rectified
2. To initiate extra safety patrols
3. To issue torches as a temporary measure
4. In a high-risk situation, to limit use of all or part of the building

Test programs for identifying early failures can reduce the chances of failure of two adjacent luminaries at the same time.

DETAILS OF FAILED LIGHT AND/OR ANY COMMENTS

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
