Make	Model	Type	Serial Number	Location
Baxi	XX	Boiler	3231661	Under stairs

A unique certificate is generated for every asset required.

Colours configurable to match your brand.

ls Immediately Dangerous Because:

3.a out of date

3.b as you have refused to allow it to be made safe a warning label has been attached

PLEASE NOTE: Registered gas operatives are required by law to report cases where they are refused permission to disconnect an IMMEDIATELY DANGEROUS gas installation to the Gas Emergency Service Call Centre for Natural gas,or for Liquefied Petroleum Gas (LPG), the supplier. All Gas Transporters (GTs) operate a gas emergency service and have powers under the Gas Safety (Rights of Entry) Regulations to visit properties and disconnect unsafe gas appliances/installations.

4. Is at Risk Because:

4.a It is 45 years [illegible] tank has corroded

4.b Appliance has been turned off and a W[illegible]NG LABEL

FOR YOUR OWN SAFETY, 'IMMEDIATE[illegible] APPLIANCES/INSTALLATIONS SHOULD NOT BE USED

4.c The gas user was not present at the time of the visit, and where appropriate, (an IMMEDIATELY DANGEROUS (ID) or AT RISK (AR) situation) the installation has been made safe and this notice left on the premises ✓

5. RIDDOR

☑ The unsafe situation(s) identified is responsible to the Health and Safety Executive(HSE) under RIDDOR

6. The Gas Appliance/Gas Installation (delete as appropriate)

Make	Model	Type	Serial Number	Location
Baxi	XX	Boiler	3231661	Under stairs

[illegible]ards (NCS)* because: it is out of date for current standards

[illegible] currently operating safely and does NOT consitute either an immediately Dangerous or At Risk situation. The defect(s) do not present a gas safety hazard at this time. However, in the intrests of safety, it is recommended that work is carried out to upgrade the installation to

Configurable Filenames. Including date, job no and custom text.

TERMS & DEFINITIONS

GAS INDUSTRY UNSAFE SITUATIONS PROCEDURE (GIUSP): The GIUSP provides guidance to businesses and operatives registered / licensed by Gas Safe Register for dealing with unsafe situations in domestic and non-domestic premises supplied with natural gas or liquefied petroleum gas.
The current controlled copy of this procedure can be found on the Gas Safe Register website. Hard copies are available from CORGIDirect on 01285715408 quoting order reference USP 1.

IMMEDIATELY DANGEROUS (ID): An Immediately Dangerous (ID) appliance / installation is one which is an immediate danger to life or property.

AT RISK (AR): An At Risk (AR) appliance / installation is one which is potentially dangerous where a fault exists and which, as a result, may in the future constitute a danger to life or property.

RIDDOR: Reporting of Injuries, Diseases and Dangerous Occurrences Regulations - There is a requirement under RIDDOR for certain types of injuries and dangerous gas fittings to be reported to the Health and Safety Executive (HSE). If the box overleaf is ticked relating to this then the unsafe situation identified is reportable to the HSE under RIDDOR and as such will be appropriately reported to them.
Note: The detail above on RIDDOR applies to Great Britian (England, Scotland and Wales). Other geographical areas may have similar reporting requirements.
